

Explanation of Map Symbols

- Foliation
- Strike and dip of inclined foliation on interpretive form-lines
  - Strike and dip of vertical foliation on interpretive form-lines
- Cleavage
- Strike and dip of inclined cleavage
  - Strike and dip of vertical cleavage
- Thrust Faults
- ▲— Thrust fault, teeth on upper plate

Plates 1 and 2 are a paper representation of the digital bedrock geologic information for the Weston Quadrangle located in Rutland, Windsor, Bennington and Windham counties, Vermont. All of the bedrock geology data were obtained from Ratcliffe and Burton (unpublished data), and were digitally compiled on a personal computer system using PC ARC/INFO version 3.4D Plus by Environmental Systems Research Institute, Inc.. The data shown on Plate 1 were exported to ARC/INFO version 7.0 where solid color fill patterns were generated, and faults were drawn using symbols from a linestyle (alcnw6 1.lin) from ALACARTE software (Fitzgibbon and Wentworth, 1991). The compilation procedures discussed in Walsh and others (1994) were used in the preparation of this report, with the exception of the topography. The topography was obtained from a photographic negative separate of contour lines from the Weston, VT (1988 provisional edition) U.S.G.S. 7.5-minute topographic quadrangle. The negative was scanned on an IDEAL FSS 8000 raster-format scanner. The raster image was vectorized using GTX CSR Contour version 2.00 by GTX Corporation, Inc., and converted into an unattributed line coverage in ARC/INFO version 7.0.

1. Fitzgibbon, T.T., and Wentworth, C.M., 1991. ALACARTE user interface: AML code and demonstration maps, Version 1.0. U.S. Geological Survey Open-File Report 91-587.
2. Walsh, G.J., Ratcliffe, N.M., Dudley, J.B., and Merrifield, T., 1994. Digital bedrock geologic map of the Mount Holly and Ludlow quadrangles, Vermont. U.S. Geological Survey Open-File Report 94-228, scale 1:24000.

Topography from the Weston, VT quadrangle (1988 edition)  
Contour Interval 6 meters  
Map projection is Universal Transverse Mercator  
Digital map units in State Plane Coordinate System  
National Geodetic Horizontal Datum of 1927  
Roads from the Vermont Center for Geographic Information, Inc.

Approximate Mean Declination  
15°00' West, 1986

Geology mapped by Ratcliffe in 1989-1995  
and Burton in 1989.  
Digitized by Burton and Thomas Merrifield.

Digital Bedrock Geologic Map of the  
Weston Quadrangle, Vermont
