Notice of Determination of Eligibility for Categorical Exclusion

Village of Alburgh, WSID #5136  
Water System Improvements  
DWSRF Loan RF3-256

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, the Alburgh Village water system in the Town of Alburgh, Vermont has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The proposed project involves renovations and upgrades to the Alburgh Village Water Treatment Plant (WTP) to replace aging infrastructure and bring the (WTP) into compliance with State and Federal regulations.

Our consideration of the Alburgh Village request included reviewing an Environmental Assessment Report dated December 2009 and prepared by Phelps Engineering, Inc. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Supply Division's website.
