Notice of Determination of Eligibility for Categorical Exclusion

Brookside Mobile Home Park, WSID #5006
Starksboro, Vermont
Water System Improvements
DWSRF Loan RF3-265

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, the Brookside Mobile Home Park (MHP) water system located in the Town of Starksboro, VT has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The proposed project includes replacement of the existing water distribution system consisting of 3,100 feet of water main, replacement of service lines, curb stops, and water meters. The project also includes the development of a new primary well source and possible installation of water treatment to comply with radiological standards.

Our consideration of the Brookside MHP request included reviewing an Environmental Information Document and supporting information dated August 2011. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Supply Division's website.
