Notice of Determination of Eligibility for Categorical Exclusion

Coldbrook Fire District No. 1, WSID #5649
Water System Improvements
DWSRF Project Number AR3-035

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, Coldbrook Fire District No. 1 Water System WSID #5649 has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The proposed upgrade includes dewatering, repair, and painting of an above ground 400,000 gallon steel water storage tank.

Our consideration of the Coldbrook Fire District No. 1 request included reviewing the Environmental Information Document, dated April 2009. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Supply Division's website.
