Notice of Determination of Eligibility for Categorical Exclusion

Town of Proctor, WSID #5228
Water System Improvements

In accordance with Section VII of the Department's Environmental Review Procedures for projects funded through the Vermont/EPA Revolving Loan Fund Program, Town of Proctor Water System WSID #5228 has requested its proposed water improvement project be evaluated for eligibility for a Categorical Exclusion exempting the project from detailed environmental procedures required for projects having a significant environmental impact.

The proposed upgrade includes the replacement of approximately 3600 feet of undersized water mains to improve flow distribution and residual pressure in the vicinity of the municipal high school.

Our consideration of the Town of Proctor request included reviewing the Environmental Information and Documentation Report, dated September 2004, which was completed and submitted by SVE Associates. At the completion of this independent evaluation, the Department has determined the project meets the criteria for receiving a Categorical Exclusion. The project will correct water system deficiencies and does not meet any of the criteria resulting in denial of an exclusion.

Further information on the project and this determination are available for inspection at the Department of Environmental Conservation, Water Supply Division, Old Pantry Building, at 103 South Main Street, Waterbury, Vermont. In addition to the applicant, a copy of this determination will be sent to a list of stakeholders and posted on the Water Supply Division's website.
