

**NOTICE OF DETERMINATION OF ELIGIBILITY FOR CATEGORICAL EXCLUSION**

**Village of Waterbury, Vermont  
Randall Street Sewer Replacement  
AR1-005**

In accordance with Section VII of the Department's Environmental Review Procedures for Projects Funded Through the Vermont/EPA Revolving Loan Program, the Village of Waterbury, Vermont, has requested that its proposed sewer system replacement project be evaluated for eligibility for a Categorical Exclusion from the detailed environmental review that is described in the Procedures and required for projects with significant environmental impact. The proposed project includes the replacement of approximately 1,265 linear feet of gravity sewer line on Randall Street.

Our consideration of the Village's request for Categorical Exclusion included a detailed review of the following documents:

Facilities Plan titled "*Village of Waterbury, Infiltration and Inflow Summary Report*" and dated June 2005, by Dufresne & Henry, Inc., of Montpelier, Vermont.

Environmental Information Document titled "*Village of Waterbury, Vermont – Randall Street Sewer Replacement*" and dated May 14, 2009, by Stantec Consulting Services Inc. of south Burlington, Vermont.

Upon completion of its independent evaluation, the Department has determined that the project meets the criteria for receiving a Categorical Exclusion. Specifically, the project involves minor rehabilitation of existing facilities and functional replacement of the existing pumping facility, and therefore does not affect the degree of treatment or capacity of the existing wastewater treatment facility.

Further information on the project and this Determination is available for inspection at the following locations:
