

**Agency of Natural Resources: Department of Environmental Conservation**

WM-ID General Disclaimer

The Vermont Department of Environmental Conservation (DEC) is pleased to make publicly available the information provided through the Waste Management Interactive Database (WM-ID). We strive to ensure accuracy and integrity of the information provided regularly, however, despite efforts in both QA/QC, errors and omissions cannot be completely avoided and the Department makes no guarantees as to the accuracy of the data. The data provided through the WM-ID is not to be used in making any legal decisions and the DEC reserves the right to change information at any time.

The Environmental Interest Locator provides a spatial geography component that is related to the databases available in the WM-ID. Maps are to be used for display or planning purposes only; data is not survey quality and is therefore, not to be used as a basis for legal decisions. The data layers have been developed from the best available sources at the time of their creation. These original sources vary in scale and accuracy which determines the relative map accuracy of the digital data layers. If you believe the attribute or locational accuracy is incorrect, please notify the Agency staff member, who is assigned to the record of interest, by E-mail.
