¹ Includes the towns of Arlington, Dorset, Manchester, Rupert, Sandgate, and Sunderland.
² Includes Towns of Corinth, Fairlee and Newbury wastes.
³ Includes the Town of Hartford.
⁴ Includes the following towns: Barton, Burke, Coventry, Glover, Lowell, and Newport City.
⁵ Participated in one Coventry HHW collection event and held one collection event in Burke.
⁶ Includes the towns of Pownal and Stamford.

SUMMARY

The following 2009 HHW/CEG Hazardous Waste Collection Data was tabulated from Solid Waste Districts, Alliances and Municipalities representing 96% of Vermont households. These statewide collections cost approximately \$1,380,000.00, served approximately 21,475 participants and collected approximately 483 tons of Household Hazardous waste, 84 tons of Conditionally Exempt Generator Waste, 13.5 pounds of mercury, 2029 pounds of mercury-added products/debris, 298,982 linear feet of fluorescent lamps and approximately 877 tons of discarded electronics. In comparison, 2008 saw 99% of Vermont Households represented, cost approximately \$1,300,000, served approximately 19,000 participants and collected approximately 369 tons of Household Hazardous Waste, 74 tons of Conditionally Exempt Generator Waste, 31 pounds of mercury, 1173 pounds of mercury-added products/debris, 639,000 linear feet of fluorescent lamps and approximately 1,441,000 pounds of discarded electronics. The following is a comparison of the 2009 and 2008 collection years.

- Average statewide cost per participant in 2009 was approximately \$64.21. This is an increase from 2008 when the average cost per participant was \$55.90. The total cost for statewide collections for 2009 was approximately \$1,380,000.
- 2009 Statewide participation saw a decrease in the total number of participants in comparison to 2008 (21475 vs. 24,672), and an increase in the average statewide participation (8.87% vs. 7.76%). Of the participants for 2008, 1196 were businesses and 5059 were repeat participants (repeat participants accounted for an average of 20% of the total 2008 participants). Fixed facilities, seasonal collections and some single-day collection events had higher than the state average participation rates (8.41%- 26.72%).
- The amount of waste collected in 2009 per participant increased when compared with 2008 (48 vs. 30 pounds).
- The number of collection events available statewide decreased in 2009 compared to 2008 (1248 vs. 1442).
- Approximately 13.5 pounds of elemental mercury, 2029 pounds of mercury-added products/debris and 298,982 linear feet of fluorescent lamps was collected in 2009. In comparison, 2008 was approximately 31 pounds of mercury, 1173 pounds of mercury-added products/debris and 639,000 linear feet of fluorescent lamps collected.
- Approximately 877 tons of electronic waste was collected in 2009 versus 846 tons collected in 2008.

Household estimates were derived from the US Census Bureau: *Population, Housing Units, Area and Density: 2000*.
 Conversion factors used were 8 pounds per gallon, 400 pounds per 55-gallon drum, Gaylord or pallet and .15 pounds per lineal foot of fluorescent lamps.

This information is a collection of Household Hazardous and Conditionally Exempt Generator (HHW/CEG) Waste surveys completed by various Solid Waste Districts, Alliances and Municipalities throughout the State Of Vermont. All information compiled and represented here was reported by representatives of the Solid Waste District, Alliance and/or Municipality. Every attempt has been made to provide accurate information on Vermont's Household Hazardous Waste and Conditionally Exempt Generator waste collections. Multi-entity collections and districts that provide collection services for other districts or municipalities have reported their collection numbers only (to help prevent any double counting). Any questions, suggestions or corrections, please feel free to contact , Christopher "Topher" Kay at (802) 241-4221 or e-mail at christopher.kay@state.vt.us.
