

WASTEWATER MANAGEMENT DIVISION

APPLICATION FEE SCHEDULE

For permits issued under 10 V.S.A Chapter 64

Effective 7/1/2007

Subdivision of land fees		Minimum	Maximum
Original application; major amendment			
Municipal or private sewerage collection system and public water supply	\$0.25 per gallon of design flow of potable water or wastewater, whichever is greater	\$105.00 per lot	
All other projects	\$0.50 per gallon of design flow of potable water or wastewater, whichever is greater	\$210.00 per lot	
Minor amendment	\$50.00 per lot		

Potable water supply or wastewater system fees		Minimum	Maximum
Original application or major amendment when both potable water <u>and</u> wastewater are being constructed. New or replacement systems			
Municipal or private sewerage collection system and public water supply	\$0.25 per gallon of design flow of potable water or wastewater, whichever is greater	\$105.00 per application	\$15,000.00 per application
All other projects	\$0.50 per gallon of design flow of potable water or wastewater, whichever is greater	\$210.00 per application	\$15,000.00 per application
Original application or major amendment when either potable water <u>or</u> wastewater, but not both, is being constructed. New or replacement systems			
Municipal or private sewerage collection system and public water supply	\$0.15 per gallon of design flow	\$105.00 per application	\$15,000.00 per application
All other projects	\$0.30 per gallon of design flow	\$210.00	\$15,000.00
Original application or major amendment when design flow of potable water <u>or</u> wastewater is increased but no construction is required			
Municipal or private sewerage collection system and public water supply	\$0.25 per gallon of increased design flow of potable water or wastewater, whichever is greater	\$67.50 per application	\$15,000.00 per application
All other projects	\$0.50 per gallon of increased design flow of potable water or wastewater, whichever is greater	\$135.00 per application	\$15,000.00 per application
Minor amendments	\$50.00		

Special fees		Minimum	Maximum
Original application or amendment solely for construction of grease trap, due to change in use, no increase in design flow.	\$135.00		
Original application or amendment solely for construction of holding tank for nondomestic wastewater when nondomestic wastewater will be transported off site.	\$135.00		
Original application or amendment for initial connection by an existing building or structure to a municipal water or wastewater system at the time the system is first constructed where there is no increase in design flow and where the connection and system has been reviewed and approved by the Facilities Engineering Division of the Agency or has been reviewed, approved, and certified by a licensed designer retained by the municipality.	\$50.00		
Original application or amendment for subdivision of land where the lot or lots subject to the fee are owned or will be owned by the applicant or a person related to the applicant by blood, marriage, or civil union. If the lot or lots are subsequently transferred within a period of two years to an individual who is not related by blood, marriage, or civil union to the owner of the lot or lots, the full fee for the lots that were created shall be paid.	\$35.00 per lot		
Administrative Amendment of a permit such as correction of book/page number or a name change	\$35.00		
<ul style="list-style-type: none"> • When a wastewater system is subject to the fee provisions above and for indirect discharge sewage discharges, only the higher of the two fees shall be assessed. • When a potable water supply is subject to the fee provisions above and for public water supply construction permit applications, only the public water supply construction permit application fee shall be assessed. • When a project is subject to the fee provision for the subdivision of land and the fee provision for potable water supplies and wastewater systems, only the higher of the two fees shall be assessed.
