

**VERMONT RESIDUALS MANAGEMENT REPORT for
SOIL and PLANT TISSUE ANALYSIS**

INSTRUCTIONS

Solid Waste Unit ID#: Enter the identification number of the land application site. This number is found in your solid waste management facility certification.

Common name: Enter the name used to identify the site. Examples: Brown Field, Site #1, XYZ Landfill, XYZ Incineration Facility, etc.

Laboratory Sample ID Number: Enter the number assigned to the sample by the lab that ran the analysis. This number is found on the laboratory's results report sheet.

Date Sampled: Enter the date on which the biosolids sample was taken, not the date that the lab ran the analysis or reported the results.

Media: Circle the appropriate letter for the type of sample - 'S' for soil, 'P' for plant tissue.

Laboratory Name: Enter the name of the laboratory that completed the analysis.

Constituents: Enter the analysis results on the appropriate line.
