

Interagency Committee On Chemical Management  
ICCM/Technical Team  
Meeting Minutes: July 14, 2021  
Teams Meeting  
Facilitated by Peter Walke, DEC Commissioner

**1. Welcome, Agenda Review**

Walke welcomed members of the ICCM and provided brief overview of the agenda.

**2. Review and approval of May meeting minutes**

No edits or changes. May minutes approved.

**3. ICCM database and form update**

Zaikowski provided updates on the database and form. ANR has completed final updates to the chemical nomination form. ADS has completed the public-facing, searchable website that will house documents related to each submission. Next steps: small group will complete final round of testing of both the form and the internal processing steps. This has been scheduled for 8/18/2021. Final changes will then be made as identified during testing. Dent will add welcome/navigation language to the public-facing website. Members discussed a soft rollout to the CAP first to allow for feedback and identify any issues.

**4. Agency legislative updates and initiatives**

- S.102 (Residuals): passed this last legislative session – it transfers jurisdiction of chicken/compost residuals to AAFM from ANR. AAFM is initiating outreach to assemble the Ag Innovation Board pursuant to H.434
- S.20: (PFAS in products) DOH is initiating its work on this one
- PCB Testing in Schools: new legislation requires all schools constructed pre 1980 to sample indoor air for PCBs by 2024. Legislation changes the definition of release to include PCBs in indoor air if released from building materials. If levels are above screening level, school will have to comply with ANR's IRule. Approximately 450 schools anticipated to be tested.
- ARPA funding available for pre-treatment work

**ICCM Members in attendance or on conference line:**

Peter Walke, Agency of Natural Resources
